SUMMARY

Results-driven Frontend Developer with hands-on experience building scalable, responsive web applications using React.js, Node.js, and modern JavaScript (ES6+). Designed and deployed an AI-powered mock interview platform with speech-to-text integration and intelligent response evaluation. Strong foundation in Data Structures Algorithms with 200+ LeetCode problems solved. Adept at collaborating in team environments and leading design initiatives.

EDUCATION

B.Tech in Information Technology (AKTU) <i>ABES Engineering College</i>	Nov 2023 – July 2027
Class 12th (CBSE) <i>Divya Public School</i>	2022
Class 10th (CBSE) <i>Divya Public School</i>	2020

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), C
Frontend Technologies : React.js, HTML5, CSS3, Tailwind CSS
Core Competencies: Data Structures Algorithms, OOP, RESTful API, Responsive Design
Development Tools: Git, GitHub, VS Code, Figma
Soft Skills: Effective Communication, Leadership Skills

PROJECTS

Mock-Mind <i>React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Multer, REST API</i>	Jun 2026
- Developed an AI-powered mock interview platform supporting HR, Technical, and domain-specific interview modes with resume upload and role targeting - Integrated an AI agent that dynamically generates 10–15 personalized questions based on the user's resume and selected role - Implemented dual input modes text and voice using Speech-to-Text for real-world interview simulation - Built a post-interview report engine that evaluates responses and generates a detailed performance summary with actionable feedback - GitHub: https://github.com/priyanshi012/InterviewIQ-AI.git	
Food Delivery Application <i>React.js, Redux Toolkit, Tailwind CSS</i>	Jan 2026
- Developed food delivery web app using React.js with 25+ food items and restaurant menu display. - Implemented Redux Toolkit for managing cart items, allowing users to add, remove, and update quantities in real-time. - Created search bar and category filters (Veg/ Non-Veg, Cuisine types) to help users find food items quickly. - Designed responsive UI using Tailwind CSS that works smoothly on mobile, tablet, and desktop devices. - Netlify: https://fooddelivery-web.netlify.app/	

ACHIEVEMENTS

- Solved 200+ Data Structures and Algorithms problems on LeetCode, including Arrays, Strings, Recursion.
- Earned the 100 Days Coding Badge for consistency and dedication.

POSITION OF RESPONSIBILITY

Vice President <i>12 Pixel</i> <i>ABESEC</i>	2026-Present
- Lead a team of designers to organize workshops and creative events, improving team productivity. - Mentor junior members in UI/UX design principles, Figma workflow, conducting weekly training sessions
